

RIGHT WHALE CATALOG

Use this catalog to find individual North Atlantic right whales you like on the mosaic and get to know them better! Simply take the number on the picture of interest and find the corresponding one in the list below, or vice versa. You can also try searching for whales that are “currently entangled”.

This document is up-to-date as of April 11th, 2022 and is based off of data from the North Atlantic Right Whale Consortium. The whales pictured here are those that have been seen since 2018 and known not to have passed away. And while the numbers or exact individuals may not fully represent today’s picture, it is meant to visually reflect the critically low number of survivors, the fragility of the species, and the urgent need to protect it.

The North Atlantic Right Whale Catalog (<http://rwcatalog.neaq.org/#/>(link is external)) is the result of a tremendous collaborative effort of over 500 individuals and organizations. Data and images are the property of the individual photographic contributors to the Catalog and are copyrighted by the New England Aquarium with all rights reserved to those contributors. The images in this mosaic are not to be used without written copyright permission. To request use of data or images from the Catalog website, contact the North Atlantic Right Whale Consortium at <https://www.narwc.org/>(link is external)

It is illegal to approach right whales within 500 yards in U.S. waters and within 100 meters in Canada without a scientific research permit. Images on this website that were collected under research permits granted by the National Marine Fisheries Service and the Department of Fisheries and Oceans.
